

The K-LOVE radio station broadcast nationwide on the FM frequency benefits me greatly as a member of my local community. It provides daily inspiration through uplifting music and spiritual, Christian messages. However, if the K-LOVE radio broadcast is displaced by an LPFM broadcast provider, many other people in the local community will no longer be able to enjoy and take part of the wonderful services K-LOVE provides. If K-LOVE is forced off of the FM frequencies, people will no longer be able to be inspired by its wonderful uplifting messages and music.

I believe K-LOVE is in the best public interest because there are far too many forms of music on the FM frequency that promote hatred, unhealthy sexual practices, and violence. K-LOVE is a station where people can come together and take part of a medium that promotes Christian living and pro-family agendas that can be enjoyed by all Americans, regardless of religious backgrounds.

Thank you for taking the time to read my comments.
